Application Instructions for

Colour Print Mask

For use with

- ✓ Glitter Colour Print
- ✓ Classic Colour Print

Material Preparation:

Colour Print Mask is suitable for use where print and optical eye contour cutting has been used to aid the Transfer of a design from the backing sheet to application on the garment, ideal where registration is important. Colour Print Mask is transparent allowing for visible and accurate alignment of the design on the garment.

1. Print and cut design on required media.
2. Weed away excess material. Leaving just design on backing paper
3. Cut Colour Print Mask larger than design to be transferred.
4. Peel milky colour backing away from clear sticky layer.
5. Place sticky layer on design ensuring there are no creases rub Colour Print Mask on design ensuring no air bubbles then peel away original backing sheet leaving the design attached to the Colour Print Mask.
6. Position on garment in required location and heat apply at correct temperature.
7. **Remove Colour Print Mask when hot .**

All technical information and recommendations are based on tests we believe to be reliable. However, we cannot guarantee performance under conditions not under manufacturer's control. Before using, please determine suitability of product for its intended use. I.e, do your own wash test, The type and amount of water repellent treatments varies significantly on different nylons. This factor will determine how well graphic adheres. Therefore we cannot guarantee adhesion to all nylon fabrics. Warranty of product is to replace product only and not the item this has been applied to.

Using transfer paper may invalidate printer warranty please check with printer manufacturer or supplier.
