

	Application Instructions for <i>CAD-CUT</i> [®] PREMIUM Electric & Glow in the Dark
	Recommended Fabrics: <ul style="list-style-type: none">• Cotton• Polyester• Poly/cotton blends

Accessories: Release paper. Optional Teflon Sheet and or GripFlex sheet

Always carry out a test cut on every new reel, even if it is the same colour

1. Feed Material into cutter so that the clear Mylar carrier is on the bottom.
2. Do a Cut test to confirm cut pressure and speed.
3. Cut logo, words or numbers in reverse (mirror image).
4. Weed away excess material leaving only the PREMIUM ELECTRIC or GLOW IN DARK design on the Mylar carrier for heat application.
5. Preheat the garment before application. Press for minimum 10 seconds to remove any moisture or wrinkles from the garment.
6. Position the design on the garment with the Mylar carrier side up. Cover with release paper to protect platen from heavily dyed fabrics leaching colour
7. Heat apply –
Temperature: 150°C
Time: 15 seconds
Pressure: Low
Raise Platen Slowly
8. Peel away the clear carrier while HOT

Washing Instructions:

Wait 24 hours after heat applying before washing the garment.
Machine wash up to 50°C using a mild detergent. Do not use bleach.
Can be dried in house hold tumble driers.

All technical information and recommendations are based on tests we believe to be reliable. However, we cannot guarantee performance under conditions not under manufacturer's control. Before using, please determine suitability of product for its intended use. I.e, do your own wash test.

Warranty of product is to replace product only and not the item the transfer has been applied to
