

Premium NYLON™

Polyurethane CAD-CUT® Material for use on Nylon textiles. PVC Free!

Cad-Cut® Vinyl

Use any blade

500mm Wide

✓ For Most Treated and Un Treated Nylons

Before you start!

- You will need a Weeder and Release Paper: Choose a GripFlex Pad or a Teflon Sheet for a textured finish.
- Always run a test cut to confirm pressure and speed.
- Premium Nylon can be overlaid on top of itself to create multi-colour designs.

Code: RELEASEPAPER

Code: WEEDER

Code: CSTEFLO

Code: GRIPPAD

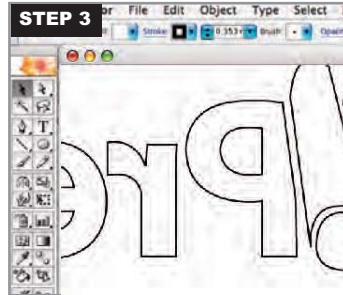

How to Cut Premium™

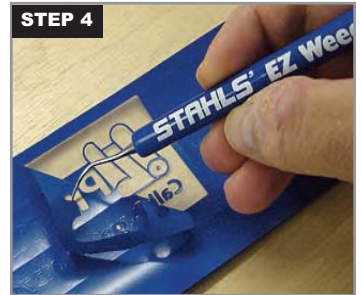

Feed your material into the cutter with the mylar carrier facing down.

Always do a test cut to check blade pressure, its sharpness and speed.

Remember to cut your image in reverse! Mirror Image.

Weed away excess material, leaving only the design on the mylar carrier.

Application Instruction

Pre press your garment between 3-10 seconds at 160°C to remove any creases or moisture.

Lay image down mylar side up and cover with release paper or your teflon sheet.

Apply for 15 seconds at 160°C at low pressure. Peel hot.

MULTI COLOUR APPLICATION

1. After pre-heating the garment, position the first colour, and cover with a cover sheet.
2. Fuse at 160°C for 15 seconds - peel hot.
3. Align the second colour and cover with a cover sheet. Fuse at 160°C for 15 seconds - peel hot.
4. Once the design is complete cover with a cover sheet and fuse for a further 5 seconds.

Take care when washing!

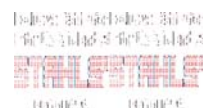

For best results turn the garment inside out and use a colour detergent during washing.
